

## Project 2 Progress - Report 3

ID	Task	M.R. URL	Assignee	Start Date	Duration	Problems	Status	Note
T1	Redo the forms and view for registration like learned in class	<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/26">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/26</a>	Dan	April 29th	2h	I had a little problem with my URLs, but I quickly fixed it	100%	Now, we can signup, login, and logout without any problems
T2	Make the navbar dynamic, add an avatar and style the website	<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/28">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/28</a>	Dan	April 30th	6h	I had a lot of problems with the BinaryField() to store the picture in the database and retrieve it	100%	The website looks fresh, and the top-menu changes based on what the user do
T3	Fixed the template by using the Django template system instead of js fetching	<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/27">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/27</a>	Johnny	April 30th	2h	I had problems using the context to render the page.	100%	The website looks the same as before but is now using the Django template system.
T4	Added delete feature for admin dashboards	<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/29">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/29</a>	Johnny	May 2nd	3h	I had difficulties figuring out how to delete users with button events.	60%	Dashboard now can delete users and posts, but now has to edit, modify, etc.
T5		<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/30">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/30</a>	Maria	May 3 <sup>rd</sup>	3h	I had a ton of trouble figuring out how to use the static	70%	The inbox template can now be viewed in

Group 1

		<a href="#">/merge_request/30</a>				folder to be able to successfully link to my CSS all the templates. This is an ongoing issue, therefore none of the templates have any styling being shown. I also had some difficulty successfully creating the urls so the pages show up well, but that has been fixed,		localhost: 8000/messaging/inbox.
T6	Working on displaying all posts on home page and creating the posts feature	<a href="https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/31">https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/31</a>	Veronika	May 3 <sup>rd</sup>	4h	Having trouble get a button to redirect to a new html page. Tried multiple different ways and it hasn't worked yet.	60%	Getting the button to work so that I can create actual posts and be able to display them. Working on the rating feature as well.
