

Project 2 Progress - Report 4

ID	Task	M.R. URL	Assignee	Start Date	Duration	Problems	Status	Note
T1	Added profile section where you can modify user info, change avatar and see services (messaging, admin). Also added password change.	https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/37	Dan	May 4th	6h	I had a little problem with saving the new avatar picture. I also had a problem with displaying current user information.	100%	Now, we can go to profile and modify the user information and change the password. Also added some styling.
T2	Worked on admin dashboard features such as modifying users/posts, blocking/unblocking users. Also dashboard pages are now connected to base page.	https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/40	Johnny	May 7 th	6h	I had problem using forms to update post / user information	90%	Dashboards are mostly done, but there needs the warn implementation and there needs styling
T3	Worked on getting posts to display, fixing the issue when pressing the create post button, fixing the images, adding the ratings, etc.	https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/41	Veronika	May 10 th	6h	I encountered an issue as to why the posts wouldn't display despite the posts adding properly to the database and am working a solution. I tried using	70%	Some of my changes are still on a local branch so I can get them to be fully functional before merging. I'm working on the

Group 1

						classes as well as functions and neither worked which led me to an issue with the database model.		like functionality as well and will work on modifying and deleting posts some more.
T4	Worked to redirect the user when buttons are pressed. Also worked to display the conversations a user has with other users	https://gitlab.com/veronika.pontolillo/python-project2/-/merge_requests/42	Maria	May 05 th	5h	For some reason had tons of issues redirecting the buttons to other templates... Am still having issues. Also had trouble displaying the conversations a user has started but it was because I had misspelled a word :/	90%	Users are now able to view their started conversations and navigate the messaging system by using most of the buttons. Still working on redirection.
